What was most memorable about your trip to Korea:

As one of my favorite players, Sam Snead, once said, "The fairways were so narrow you had to walk down them single file."

How she got started in golf:

"I was always a strong athlete when I was young. I was an MVP in soccer, skied as much as possible, and was a pretty good swimmer. One day, my dad suggested I tryout for the golf team, and I really liked the subtlety, quietness and solitude of the game. It also didn't hurt that the University of Washington Men's Team used to practice at my home course."

Funniest thing that ever happened on the golf course:

"I was hitting out of a bunker and I heard a loud noise as if someone was hitting into us. I looked back and nobody was there. I turned back to hit my shot and there was a fish right by my ball. A bird dropped a fish when it flew over the bunker."

Most memorable golf moment:

"When I came from five down off the front nine with the five-time Washington State Amateur Champion to win the match and tournament. I played the back nine 3-under par to go to the nineteenth hole."

Favorite golf course:

Pebble Beach, Monterey Bay, CA

Favorite quote:

"Listen to your dreams—those are the sounds no one else can hear." Kobi Yamada
